

**WOOD, NATURALLY DIFFERENT, WITHOUT SACRIFICING A TREE!**

Gigantic sequence from the US, painted wooden boats from Asia or wooden beams steeped in history from the Alps. Luxture has always had a passion for special types of woods. Our Passion turned into a vision with LUX WOOD. Objective is to take all the unique woods & make them accessible for creative interior & exterior solutions.

Today, we offer different types of reclaimed and precious woods that we produce in any number of product variants while protecting natural resources.
